## **2. Introduction :**

Global awareness of women's emancipation has grown during the past three decades. Improvements in social, political, and economic justice have been made, as well as access to women's rights to education, health care, and nourishment. The measures made by the government and organizations interested in the engagement of women in all sectors of development have been assessed, evaluated, and monitored in a number of publications and reports during the past several years. The World Development Report and the Human Development Report are prepared reports exclusively for illustrative purposes at the international and national levels.

It is important to comprehend educational institutions in this setting, especially higher education institutions, from a gender viewpoint. Gender mainstreaming approach, which stresses that the demands and interests of women should be consistently sought in the development and implementation of all policies and programs, is said to be predicated on the gender quality viewpoint. The process of developing, implementing, and assessing policies and programs must incorporate the gender viewpoint.

## **2.2 Gender Audit Concept and Methodology**

The rationale for undertaking a gender audit is that they raise women's awareness about their rights and claims and also their access to resources and opportunities. Gender Audits allow organisations to set their own houses in order, and change aspects of the organizational culture which discriminate against women staff and women "beneficiaries".

## **2.3 Objectives :**

1. To understand the organization's current practices and situation from a gender perspective, identifying gaps and strengths.
2. To determine the gender disparity in enrollment between men and women students, and teachers, and to empower males
3. To establish good gender balance in decision-making processes in all areas of the department activities
4. To Examine visibility given to women's challenges in the curriculum
5. Collect qualitative and quantitative data that will then be analyzed.

## **2.4 Methodology:**

The data has been collected from the students' establishment section's Data Base, for B.Arch. students, Teaching and Non-Teaching Staff, for the academic year 2022-23.

## **2.5 Scope**

The present study gives an opportunity to identify the progress of Gender Equality on our college.

## **2.6 Limitations**

The Study covers only Dr. D. Y. Patil college of Architecture, for Academic Year 2022-23.

Padmashree Dr.D.Y.Patil College of Architecture believes that the students movement needs to be known to the parents even when they are far from them. So the college demands a consent form from the parents regarding their wards movement (academic / personal).This form ensures transparency and eliminates any kind of disparity between both the parties.The letter may contain the basic contact information of the individual seeking permission; the parental consent slip and the liability are to be provided at the bottom of the letter.

### Suggestions for Improvement

1. As the class size was huge seminar hall should have been provided to conduct the session.
2. There was no room for conducting the physical activity with the student's dues to space constrains.
3. The students should be encouraged to avail the counseling services and reach out for help provided by the institute.

## Session Details

**Date:** 27.06.23, Tuesday

**Time:** 11.00 am- 12 noon

**Venue:** College of Architecture, room no. 502

**Topic:** Impact of Alcohol and Drugs on Youth

**Target audience:** FYCOA

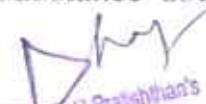

## **Objectives:**

1. To understand the detrimental effects of alcohol and drug abuse on youth.
2. To raise awareness about the risks associated with substance abuse among young individuals.
3. To explore preventive measures and intervention strategies for addressing substance abuse among youth.

## **Introduction:**

The session on the impact of alcohol and drug abuse on youth was conducted on 27<sup>th</sup> June, 23 at Dr. D.Y. Patil College of Architecture. The aim of the session was to educate the students about the negative consequences of substance abuse on young individuals and to emphasize the importance of prevention and early intervention. among young individuals in recent years.

The speaker emphasized the physical, psychological, and social implications of alcohol and drug abuse on youth. They explained how substance abuse can lead to impaired cognitive function, increased risk-taking behaviour, mental health disorders, and negative impacts on personal relationships and academic performance.

The speaker highlighted the role of peer pressure, societal factors, and easy accessibility to substances as contributing factors to youth substance abuse. They stressed the importance of creating supportive environments that discourage substance abuse and promote healthier choices.

The speaker discussed the long-term consequences of substance abuse, including addiction, legal issues, and potential harm to future prospects and opportunities. They provided real-life examples and personal anecdotes to engage the audience and emphasize the significance of addressing this issue.

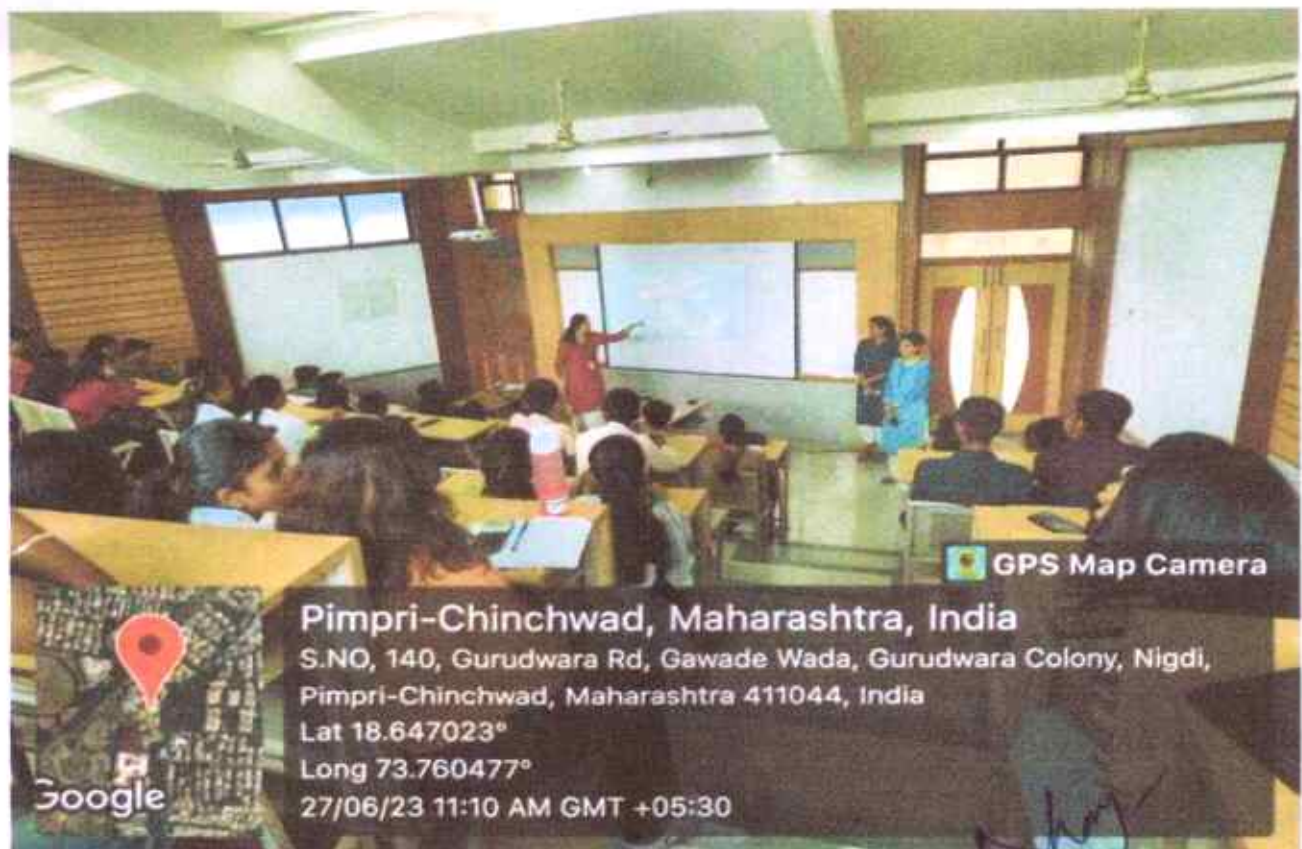

### **Conclusion:**

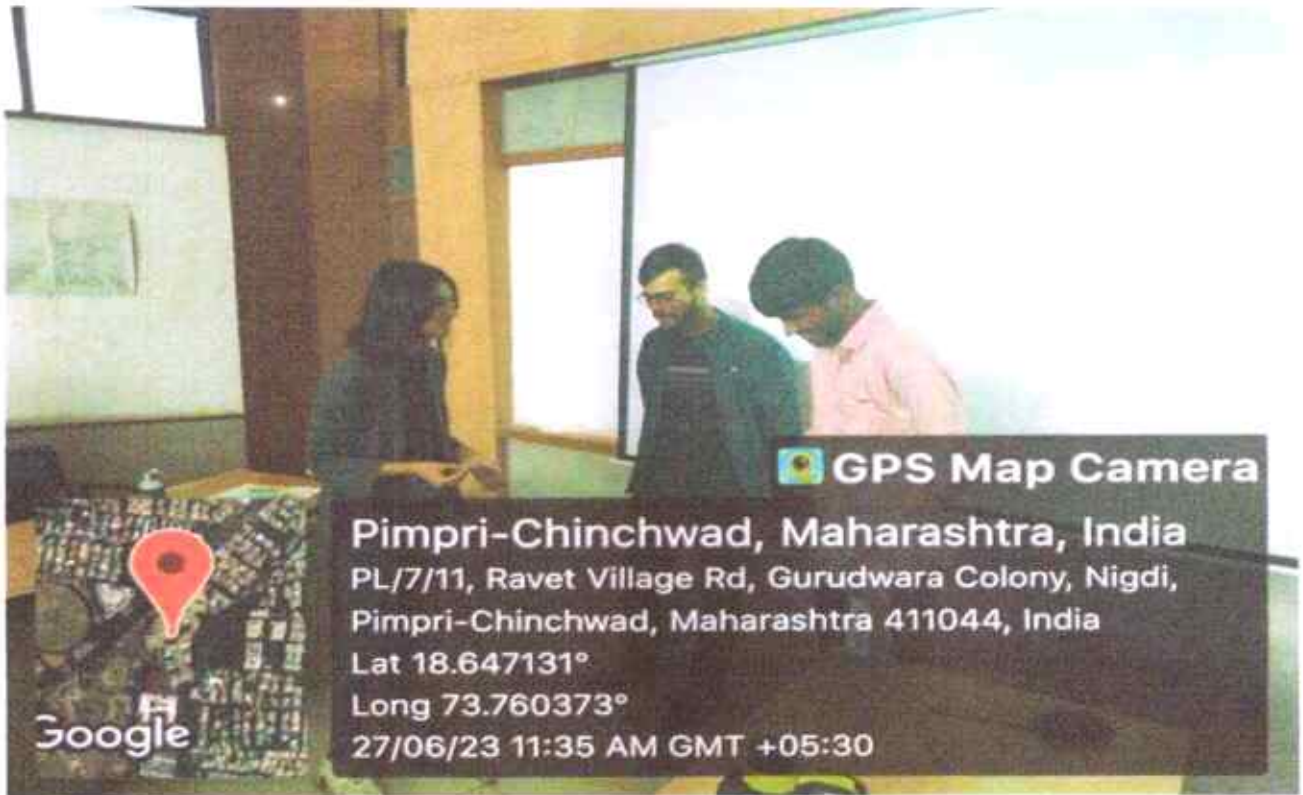

In conclusion, the session on the impact of alcohol and drug abuse on youth was informative and eye-opening. It shed light on the critical importance of preventing and addressing substance abuse among young individuals. The observations made by the speaker reinforced the need for comprehensive educational programs, early intervention strategies, and support systems that can effectively combat substance abuse among youth.

The session served as a call to action, encouraging attendees to play an active role in raising awareness, advocating for policy changes, and providing support to individuals struggling with substance abuse. By working together, society can create a safer and healthier environment for the youth, enabling them to make informed decisions and lead fulfilling lives free from the detrimental effects of alcohol and drug abuse.
